 Consumer Products  
 Data Storage and Semi-Conductor  
 Military & Homeland Security

Today's engineering manager deals with many complex staffing issues including an increasingly mobile workforce. To remain competitive, it is critically essential to have access to a flexible and "local" talent pool. It is not enough to count on offshore consultants to get the job done. We understand that managers want flexibility with out sacrificing accountability. This is where Ensign PD steps in.

Our engineering consultants ,versed in many disciplines including mechanical engineering, project and product management, documentation and quality control, are the solution. Ensign PD is focused on providing client strategies that result in rapid innovation and higher yield. Our flexible sourcing options also mean that our clients have peace of mind knowing that their investments can be managed closely and may be tuned according to their companies' needs.

At Ensign PD, we know innovation can be challenging, but we're up for it.
